LABORDE AND FORMER' CONCERT LAST NIGHT .-The grand concert given last night by this celerated troupe, was a musical feast in every sense of the word, for there never has appeared in our ity such a combination of truly great artistes as those who compose this company. The concert was opened by M. Satter, who played a fentasia pon airs from Ernani. M. Satter is a pupil of List, and is acknowledged by many to fall but littleshort of that great master in his command of the key board. His fantasia on the "Huguenots" was an exemplification of his diversity of execution, which can bring such contrasted themes within the range of his musical capability. It left an impression that will not soon be effaced. He was warmly encored at the conclusion of each piece, and with a facility not less surprising, he transformed scientific precision and complexity of combination into the simplest and sweetest

strains, with a delicacy that made the contrast M'lle Poinsot sang the aria from Trovalore and he tondo from Jerusalem. Her voice is a soprauo of great clearness, power, and compass, nd she uses it with a finish and certainty of exeution, which establishes at ouce the thoroughness of her musical education.

Madame Laborde sang exquisitely. Her ren dering of Casta Diva, and Paganini's Carnivat of Tenice, will long be remembered as a morsel of or nate and beautiful vocalism. The most complex and difficult variations of that familiar theme were mastered with an ease and grace which was truly wonderful. She concluded the concert by singing the duett from Don Giovaum, with Karl formes, and none who listened to this wonderful ady last evening but was impressed with the conviction that she is the greatest bravura singer that we have heard since the days of the lamented

Karl Formes was heartily welcomed back by his many admirers, and sang his usual pieces with all the length, breadth, hight and depth of his wonderful voice. He gave us the rollicking aria from the "Barber of Seville" with a gusto which has never been surpassed. His rendering of Schulest's "Wanderer" was most impassioned, and left many an eye wet with tears. The "Rolling to Foaming Billows," from the "Creation," was grand and imposing, and given with great richhas no rival. There is nothing to equal the flexibility and profundity of his voice. Ilis lowest notes are expressed with the same sustained clear-

ness and fullness as his most natural tones. Theo. Thomas, the violinist, is a young man & great talent, and one of the most promising composers of the present day, and has long held, in the North, the position of the tirst violinist in this ountry. He performed De Beriot's Tremito, and the fantasia of Vieuxtemps on airs from Lonibardi, in a manner which could only be surpassed by that master himself.

Carl Auschutz, the celebrated conductor of the Academy of Music, New York, directed the cou-

emph, and the only thing to be regretted is that it is the last but one which these talented artistes can give here.

To-night they give their last concert, when ar entire new programme will be performed, conaining selections from the Huguenots, Trovatore, Lucretia Borgia, etc., etc. To all who were there ast night we need not offer any inducements to were not fortunate enough to be present, we say, do not allow this final opportunity to pass without hearing these great artistes. DAILY COURIER TWO BOATS SUNK BY COLLISION IN THE THE NAT. HOLMES AND DAVID GIBSON MANY LIVES LOST.

> By our dispatches yestesrday morning, we learned that the Pittsburgh stern wheeler, and the Cincinuati hoat David Gibson came into collision Monday night in the Ohio, opposite Aurora, and that both hoats were sunk. They will probably prove a total loss, as they went down in deep water, and their cabins tloated off. The Nat. Holmes was on her way to St. Lonis from Pitls. burgh, with ahout 100 passengers for Pike's Peak, and it is rumored that 50 lives were lost. as the collision occurred at night, and both hoats sunk far away from the shore. The David Gibson was on her way to Cincinnati from New Orleans with a heavy cargo of groceries and other articles, drawing 8 feet water. She had no passengers, and was an old, well worn hoat, not worth over \$12,000, hut her cargo was very valuable.

GREAT LOSS OF PROPERTY.

The night was stormy, and probably the boats became unmanageable, hut that point is unfortunate for Cincinnati hoats, this heing the second sunk there this season. Several of the crew of the Gibson are reported missing, but it was not ascertained who they were, or whether any of the flicers of the Nat. Holmes were lost or not. The following in reference to the disaster is from the Cincinnati Gazette:

Cincinnati Gazette:

The hoats came together, it is said, nearly at the same place where the Iowa and Madison came in collision a few weeks since, when the latter was sunk. Last night was dark and cloudy, and when the collision took place the greatest consternation prevailed among the crews and passengers. The Holmes had ou board over 150 persons, a large number of whom are reported. As the steamer was going down they sprang into the river, setzing planks, barrels, and boxes, by the nid of which many reached the shore. On the Gibson there were not many passengers, and only Gibson there were not many passengers, and only two or three of the crew are missing. Nearly all the passengers on the Holmes were emigrants

destined for Pike's l'eak.

Both steamers were deeply laden—the Gibson with sugar and molasses, and the Holmes with Pittsburgh manufactures, and a small amount of dry goods. The boats are represented as sunk to the hurricane decks, and both are, with their cargoes, probably, a total loss. They lie nearly in the middle of the river. The Gibson was owned in this city by Dr. Browe, Captain McKinley, and David Gibson, and was ralued at \$15,000, and insured for two-thirds her The Holmes was owned in Pittsburgh, hy apt. Kennedy and others, and was valued a

FURTHER PARTICULARS .- From the officers of the mailboat last night, we learn that the disaster was one of the most terrible ever known. The Nat. Holmes was sunk almost instantly, carrying down all the crew on watch, including the enincer, second mate, and firemen, and it is feared that but very few passengers were saved. The collision occured about 9 o'cleck at night, and when the Kentucky, a mailboat, passed up two hours after, they got but three or four survivors at Aurora. They were the second clerk, striker, engineer, and a tireman. The captain, first clerk, and nearly all the passengers were thought to be lost. Yesterday morning the cabin of the Nat. Homles was found at Belleview, below Aurors, and a little girl and a man were cut out

through the root, and found alive. Two dead bodies of passengers were found on the wreck. The ollicers and all the crew of the David Gibon, it was thought, were saved. The cabin of hat boat was caught at Warsaw, and the mailboat reports the river strewn for miles with porions of the wrecks, boxes, and packages of

Present-Hon. George W. Johnston, chairman, and a numerous attendance of ladies and gentlemen.

Rev. Mr. Heywood, from the committee appointed on the 20th of December last, by permission, made the following report, which, together with the annexed resolutions, were unanimously con-

curred in and adopted, to wit Seport upon the Importance and the Practicability of Establishing a House of Refuge, or Reform MR. CHAIRMAN: Your committee have consid-

ered, with earnestness and deep interest, the sub-ect referred to them, and present the following statement as the result of their deliherations: question which presents itself at the outset is this: Is an institution of the kind known as a House of Refuge needed by our city? Is it not merely desirable but absolutely necessary? Your ommittee have no heattancy in replying that it is needed—urgently, imperatively demanded. And or these reasons the active and fruitful causes of for these reasons the active mong are ignorance, truency, vagrancy, orphanage, and that condition worse than orphanage, found in homes darkened and perverted by the presence of irreligious and vicious parents, or parents whose low moral state. and want of moral power prevent them from exerting a healthful and efficient control over their

All these causes exist in every large town, and All these causes exist in every large town, and the larger the population the greater, unless wise counteracting agencies he employed, will be their elliciency in producing their legitimate results— Sabhath breaking, profanity, contempt for author-ity, human and divine, recklessness, intemperance, licentiousness, and thievery. These effects are not the occasional, accidental consequence, but the licentiousness, and thievery. These effects are not the occasional, accidental consequence, but the normal, necessary results of the cause mentioned, following them as naturally as the golden harvests of June follow the sowing of the wheat. That these causes are more active in our city than in other cities of the same population, we will not assert, nor do facts compel us to assert; that they are as active, we cannot deny. Gentlemen whose official position gives them the best

men whose official position gives them the best oportunities of knowing, concur in the opinion that these causes are widely, intensely operative in our city, and that their dread efficiency is already manifest in a painfully large number of exposed, erring, and vicious youth.

You, Mr. Chairman, stated at our last meeting nou, Mr. Chairman, stated at our last meeting hat you believed there were not less than six undred youths in Louisville on the highway to uin, and certain to reach their destination unless rrested by some wise and kind instrumentality. ed in the Ohio river at New Albany, an Monday Mr. Kirkpatrick, late chief of the police, states that there are three hundred at least of young persons who need the restraining and reforming inluence of some suitable institution.

What can be done with and for these unhappy youths? Left to themselves and to the depraying induspress around them, they are sure, humanly

speaking, to be ome lawless and desperate. They are pupils in a school whose test of progress is proficiency in vice, and whose successful graduates are accomplished criminals. They must not be left to themselves, for the sake of society, which in their present condition they expose to a which in their present condition they expose to a moral contagion as insidious as that mysterious and appalling Asiatic disease, against whose influence no age, class, or position affords security, and to which, in their full development of viciousness they will become a most oppressive burden.

They must not be left to themselves for their own sake. It is utterly at variance with the spirit of all Christian society, of all society that ho nors and loves to bear the sacred name of Him who came to seek and save the lost, to abandon any youth to vice and wretchedness, and especially will a Christian community shruk from the thought of such abandonment when it reflects that, in the great majority of instances, whatever thought of such abandonment when it reflects that, in the great majority of instances, whatever may be the limits and sins of these erring youths, however deprayed and censurable they may be, back of all their faults, anterior to all their sinful wanderings, is the misfortune, than which there is none greater to childhood, of never having had a true Christian hame. is none greater to childhood, of dever harting a true Christian home.

What then is to be done with them? Shall they be arrested? To arrest them, to arraign them as criminals, to sentence them to jail or work house, is to stamp upon them the mark of infamy as really if not as legibly as if done by the branding iron; for the awful, ineffaceble letter, if not burnt into the forehead, is burnt into the seal whose though possibly it may not always be

soul, where, though possibly it may not always he visible to the eyes of the world, it always is visible to the eye of the wretched wanderer himself. So useless, worse than useless, so positively armful is it thus to treat these youthful wrong loers, that wise and human administrators and deers, that wise and fullian conficers of law, in many instances, will not arrest them, nor permit them to be arrested. This position, the Judge of the Police Court has felt him. prisons of the State or county. This disposition, so frequently exercised by magistrates and jurors, rendered the lad more bold in guilt, and I have known instances of lads, now in the llouse of Refuge, being indicted half a dozen times, and as eften discharged to renew their crimes, and with the conviction that they might steal with impunity. The consideration, however, that there is a charity which provides for objects of this character has removaed all objections to convictions in

Fortunately the possibility of forming such an institution is not an untried experiment, an ansolved problem. Seventeen houses of refuge and reformation have been established in the United States, viz: two in New York, two in Pennsylvania, four in Massachusetts—three for bors and one for girls, one in Connecticut, one in Rhode Island, one in Maine, one in New Hampshire, one is this case in Maryland, one in Louisiana, one

In Europe there are many institutions, under various names and with many and great differences in discipline and management, but aiming at the same noble end—of which the famous Rauhe Hans, near Hamburg, the establishment at Mettray, France, and the Red Ilill School, England, are instances. re instances.

Many of these institutions have been in opera-

Many of these institutions have been in opera-tion for a long time, time sufficient to test most thoroughly their character and influence. And what are the results " It has been estimated that of the youths placed at the Kauhe Hans, 50 per cent, have been reclaimed; at Mettray, 30; Red Hill, 70; Massachusetts State Reform School, 80; Philadelphia House of Refuge, 67. Mr. Mayer, of Baltimore, any that the "statistics furnished Philadelphia House of Refuge, 67. Mr. Mayer, of Baltimore, says that the "statistics furnished by the different institutions show that at least three-fourths are redeemed and become permanently respectable members of society." Mr. Ketchum, Superintendent of the New York House of Refuge, says that "with good government, and a rigid classification, and retaining a third class until they are of age, or nearly so, ninety per cert. of all the inmutes may be reclaimed."

Of course, all estimates of this nature are but approximations, but when made, as these esti-

How interesting, how impressive, dowed a couraging such results are? Take the estimate made by Mr. Mayer: suppose that seventy-five out of every hundred placed within these reformatory influences are redeemed, and consider how much such a change imports to them and to the community. Redeemed from profanity, irreligion, licentiousness, to virtne and religion, from wretchedness and hopelessness to hope and happiness, from idleness to industry, from law-lessness to cheerful obedience, in a word, the prests and foes of society changed into its sup-The state of the control of the cont

astray, it is through the influence of a home that they are to be reclaimed. The true philosophy of reform is expressed in a single sentence by Mr. Rutherford, Superintendent of the Western Pean aylvania House of Refuge: "The heart was made to love, and, in the case of deprayed youth, to and kindness only which have power to create and call out love. We love God because he first loved us." The erring youth, who may be entrust ed to a House of Refuge and Reform, never can be

The institution, then, must be a home. Where shall it be placed? "Under no circumstances should our institutions be located within the bounds of a thickly populated city," say a committee composed of three men of large experience. mittee composed of three men of large experience in the management of Houses of Refuge, in their report to the first convention of managers and superintendents; and the distinguished superintendent of the New York House says, very decidedly and emphatically, that "a farm in connection with all reformatories is most desirable."

That this is the true view, we think, no one who reflects upon the subject can doubt, for, independent of all considerations of economy, the moral influence of active, healthful, out-door industry. ittee composed of three men of large experience

influence of active, healthful, out-door industry its influence in facilitating reformation, is very reat; in fact, inestimable.

If these views are correct, the institution should have a home character, and should be tocated on

What would be the cost of an institution thus located? Only an approximated answer can now be given to this question. A farm of the acressituated twelve or fifteen miles from the city could probably be purchased at \$35 per acre which would make the cost of the land \$7,000. The cost of the huilding would depend of course The cost of the building would depend to consequent upon the plan adopted. The dillerent institutions in the United States have varied widely in cost, one having heen erected for \$25,000, another for \$40,000, while on another \$300,000 were expeaded It is safe to say that a house suitable in every way, with all the necessary appendages of fences, barns, and other out-buildings, could be built for \$250,000. The whole cost would then be \$50,000. The whole cost would then be \$57,00 \$50,000. The whole cost would then be \$5,000. How could means be raised to meet this cost: We don't not that the \$7,000 required to pur chase a farm, or \$10,000 or more if need ed would be cheerfully contributed by generous citizens of Lonisville; and we be lieve that if the General Council would sub-

mit to the people an ordinance, providing that the \$50,000 necessary for the construction of the huildings should be raised by special tax—say \$25,000 in one year and \$25,000 in the succeeding year—the ordinance would be sustained by a vote nearly if not entirely unanimous.

Resolved, That the establishment of a House of Refuge or Reform School, for the reception and reformation of exposed and erring youth, is imperatively demanded, not only for the sake of those youths, but also for the true welfare of our

city. Recolved, That such institution should be so established, arranged, and conducted, as to make it, as lar as possible, in spirit and influence, a Resolved, That to enable an institution of the

kind proposed, to accomplish its designed and most easily and successfully, it should be placed in the country in a healthy locality, within acces sible distance from the city.

*Risolved, That a committee of eight be appointed to solicit subscriptions from the citizeus for the purchase of suitable grounds, and to request the General Conneil to submit to the people of Lonis ville an ordinance providing for the raising by special tax the sum necessary to erect appropriate huildings, or to provide in such other way as may seem wisest to them, the requisite and in order that the House of Refuge or Beform School may be speedily established in accordance with ible distance from the city. may be speedily established in accordance with the act of the Legislature of Kentucky, approved

LOUISVILLE: WEDVESDAY, MARCH 30, 1859. Reading Matter on Every Page.

The Louisville Journal labors desperately and incessantly to justify the cormorants who have fattened upon the spoils wrung from the overburdened and over-taxed voters of this city, who placed them in power. It asserts that "all proper conomy has been exercised in our city offairs," when. in fact, the city has been literally devoured and reduced to a mere mart for the sale and exchange of commodities manufactured abroad in cities not carsed with Know Nothing rulers. Hundreds | zan and lawless course. of her working men were driven away by the murderous Know Nothing mob of the 6th of August, 1853, and many of them have never returned. Their places have not even yet been entirely filled, and while it is known and understood abroad that the city is infested with Know Nothing rulers, who obtained their places by outraging the rights of the people, and by the aid of hired bullies and assassins, honest eitizens and mechanics, especially those of foreign birth, who love peace and quietness, and wish to enjoy safety and security for their lives and property, will not come here, but will seek other points where these advantages can be realized.

The Journal speaks of the prosperity of Louisville. Where is it, and what is it? True, Louisville is beginning to recover from the almost fatal blow inflicted upen her prosperity by the Know Nothing party on Bloody Monday, but she has not get reached as prosperous a condition as she enjoyed when she was struck with the mildew of are bosy mainly in selling the articles manufactured by other cities, and there is a show of activ-.ty about our public works now in progress. But Lonisville should be a manufacturing city. Why by the people to administer and preserve it from is she not' Simply because Know Nothing bulties and murderers, under the protection of the and Black sepublicans, and the contempt which Council, if not under its direction, have frighten- the latter faction entertains for the former, on all ed from our limits a large producing class of occasions, except when they desire the co-opera-

But because they are disgraceful shail we, like the Journal, endeaver to concest them from public serutiny? Such in our opinion is not the office of a true friend of Louisville. Let us remove the discrace, and not seek to hide it. The Journal with cha acteristic audacity and becoming impudence, claims to be, pro excellence, the friend of Louisvide, because it strives to conceal the disgraces under which Louisville now suffers. The loura I comes to be the organ of the city, whereas, it is merely the organ of the city officers. Its chief study is, how it can best deceive the citizens of Louisville, and defend the outrageous acts of our city offic als. Whatever is done by an official is pronounced good by the ready and swift Jouraal witness. The Journal pronounced the first report of our City Auditor "very good," when it was really so very bad that it was withdrawn from the public by its author.

The Journal continually asserts that the taxes of this city are not onerous. Let us see: Before the ast endancy of the present faction, about sixtytwo cents on the dollar's worth of property met the disbursements, including school tax. Then property was valued reasonably, fairly and regulariy. Then William Wolford, the clerk of the Board, for \$500 or \$1,2.00, performed the duties which, under the present dynasty, requires the aid of several stipendiaries at high salaries, with ofdoes, hights, feel, etc., in addition.

Now, when property is valued exceedingly high, one of the Journal's evidences of the prosperity of our city), one dollar is assessed upon every doltar's worth of property, exclusive of seboo! tax, gas tax, water tax and railroad tax. Of the two ast named no one complains. They are expected, but the others are excessive and indefensible, and can never be ameliorated, nor the city improved in reputation, as long as this partisan and irresponsible faction usurps and misgoverns it. We say irreeponsible, for it is a notorious fact that the faction which controls the destinies of this city has very little pecuniary interest in it, beyond what they manage to extort from the tax payers in the shape of extravagant salaries. It is believed that Louisville presents the only instance in christendom of a city or corporation being taken from its owners, we may say hy force, and managed by a band of

mereenaries.

To the People of Kentuc ky. We call upon the freemen of Kentucky, without distinction of party, to witness the shameless intrigues committed upon the Democracy by the Know Nothing officials of the city of Louisville. The law, as it existed a few days since, and which, for the worst of party purposes, was repealed, gave an additional voting place in the First, Second and Eighth Wards. The second voting place in the First Ward was absolutely necessary, or hundreds would have been diefranchised. It is an impossiblity to poll twelve hundred votes, the number in the Ward, in the time prescribed by the law. But they have not only destroyed the voting place, but they have thrown an additional difficulty in the way, by requiring that every tax receipt shall be stamped. naturalization paper must be examined, which will consume much time, and then the tax receipt examined and stamped .-This must consume at least one minute of time for each vote, and if so, only about seven hundred votes could be polled in ten hours, whereas, there are more than tweive hundred votes in the Ward

How shameful does this wrong appear when we refer to the language of the Lousville Jonrnal on the morning of the never-to-be-forgotten Bloody Monday. Look at it, freemen of Kentucky, and then pronounce judgment upon this base, ignoble outrage :

In the populous Wards it soil be difficult, indeed, impossible, to poll the whole cote. Our friends must see that the whole American vote is polled in every Ward.

Again it said:

Let the foreigners keep their elbows to themselves to-day at the polls. Thuse is no place for them in the rise of the nation.

And as a fit finale to this incendiary language the Journal in the same number said:

Americans, are you ready? We think we hear you say "Ready." WELL, FIRE, AND MAY BEAVEN HAVE MERCY ON THE FOE.

This is the party and these the men who have destroyed the voting places in the city. We hold them up to the scorn and contempt of the people of Kentucky, and if we mistake not the signs of the times, the good and virtuous men of all par

ies in this outraged city will, on Saturday next,

speak at the ballot boxes with a voice that will

fall with sickening agony upon the hearts of these wealth.

In the Louisville Journal of yesterday is an artiele asking the voters of Louisville to indorse the present municipal government by their votes .-

ions are propounded: Has the peace of the city been maintained? Are our burdens of taxation heavy? Is there not protection offered to property? Have not the interests of the public been earefully gnarded? Would there be anything gained by a change? Would it not be a dangerous experiment to try?

We propose to answer these Innocent interrog stives in their regular order: 1. "Has the peace of the city been maintained?" Let facis answer. On the eve of the last August election, a minister of the Gospel, the Rev. Jas.

H. Bristow, while passing along the street was brutally assaulted by a Know Nothing ruffian, because Mr. Bristow was a Democrat. For this act the brave bully was made a watchman, and a guardian of the lives and property of the citizens of Lonisville Just before the August' election, Mr. T. G. Brown, a peaceable young man of this city, was

assaulted by Know Nothing bullies, and beaten nearly to death. The ruffians who assaulted him were never arrested, nor were they indicted. In less than an hour after the assault upon Brown, the same parties went in search of poor Tom Allen, found him, and murdered him in cold blood. The murderers of Tom Allen have never been brought to trial even. "Has the peace of the city been maintained?" indeed! If what we have related, and kindred acts of atrocity too numerous to mention, can be considered as "maintaining the peace," then the peace of the eity has been maintained, and the Know Nothing ticket should

be elected. 2. "Are our burdeus of taxation heavy?" Heavy! well, we should say so. There is not a city in the popular Skirts, and their customers pronounce world where they are heavier. The taxes in Louisville amount to over ten dollars a head for every man, woman, and child, black or white, that lives within our limits. The taxes of Louisville have nearly doubled in the last five years; and now the organ of the officers in a very innocent manner asks if they are "heavy." Let the tax-payers

answer next Saturday. . "Is there not protection offered to property?" We answer by referring the reader to the desruction of Quinn's Row, the burning of the brewery on Jefferson street, and to various other outrages committed on the property of unoffending citizens. The party that committed these outrages is the same party that now asks to be re-

instated in power. 4. "Have not the interests of the public been earefully guarded?"

We suppose you refer to the act of the General Council trampling under its official feet the law of the land, and also the stubborn refusal of that body to provide sufficient voting places in the populous Wards; also to their invariable parti-

5. "Would anything be gained by a change?" Yes, everything. One thing is quite certainnothing could be lost.

6. "Would it not be a daugerous experiment to try That depends altogether on how the Know Nothing bullies behave at the polls. We are inclined to think, however, that it will not be very

[For the Louisville Conrier.] The Know Nothing organ, the Louisville Jour nal asserts this morning, that "we have shown by indisputable facts, that the Democratic party has been Aholitionized, and we now begin to have evidence developed that there exists a secret alliance between it and the Black Republicans, for prospective political operations.

Nothing but the unblushing effrontery possessed and exhibited every day by the editor of that vehicle of slander, can equal his audacity. How has he shown that the Democratic party has been Know Nothingism. At this season of the year, we Abolitionized, or that there exists a secret ulliance with the Black Republicans

Or does he suppose be

accomplished this conviction by having lauded Mr. Douglas, Mr. Forney, and other prominent Mr. Douglus, Mr. Forney, and other prominent Democrats, whom he had bitterly assailed and abused during his whole editorial life, when he hoped they had dissented from the Democratic family, and when he hoped by his laudations he could widen the anticipated breach. Or does he suppose that he achieved his object by resuming his abuse of Douglas, Forney, etc., when he found they stood firm to the interests of their country, regardless of the technical differences of opinion, and then diffusing his malignity indiscriminately upon the Administration, the Government, and upon the Administration, the Government, and Il connected with it?
If these are his evidences, he reckons without his

host. They are not as strong as the evidences adduced by Professor Henry, which extorted the confession from this oracular editor, that in his youth he cherished Abolition principles because those around him were of that creed. JOHN KITTS & CO., Main alreet, WOMAN'S FRIEND KORB, HUETTE & CO.'S GERMAN CHEMICAL ERASIVE SOAP.

WE are now manufacturing the above Soap, and are prepared to furnish the trade with any quantity desired. We claim for its the following advantages:

I. It may be used equally well with hard or soft wa-2. It requires but half the quantity required of other Soap to accomplish the same object.

3. Clothes need no boiling and but little rubbing, thus wolding their wear upon a washboard.

4. It requires less than one haif the time and labor to do the washing of a family that it requires with the hest family soap; it tends to set the colors, and does not injure ving Tar, Grease, and Printers' Ink.

6. One pound will go as far for any use as thre pounds of Common Rosin Soap, or two pounds of best mily Soaps.

Machinists, Printers and Painters, will find it an invaluable article for washing hands, as it does not char

and alith evarious affections consequent upon a diseased STONA CHOOR LIVER.

Such as indigestion, Acidity of the Stomach, Coilety Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holtand Professor, Burhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatheriand scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

Little particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Cererally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful anomatic cordial, possessed of singular remedial properties.

CAUTION:

The great popularity of this delightful Aroma has induced many imitations, which the public should guaid against purchasing. Be not persuaded to buy anything else untilyou have given Bernave's Holland Bitters a fair trial. One bottle will convince how infinitely superior it is to all these imitations. TREES AND FLOWERS. LUNAR LIGHT. CHEAPEST, BEST, AND MOST BRILLIANT LIGHT IN THE WORLD EXCEPT THAT OF THE SUN.

IN THE WORLD EXCEPT THAT OF THE SUN.

THIS LAMP burns with a pure white brilliant light equal to gas, and is much cheaper than gas. The Luar Light took the first premium at the last Mechanics' Fair in Louisville. One dollar's worth of Lunar Oil gives the light of \$3 16 of Lard Oil, \$4 86 of Whale Oil, \$9 45 of Burning Fluid, \$14 26 of Candles. Half a pint burns 15 hours, costing about 5½ cents, giving slight equal to 5 or 6 star candles. Lunar Oil is not explosive, has no disarrecable smell, and is not liable to smoke. THE VESPER GAS AIR LIGHT. The Cheapest, most Brilliant, and me at Conveni Artificial Light in the World. TayliE Vesper Gas Light has won for itself a repu

Mile Vesper Gas Light has won for itself a reputation lor elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses as decided advantage over even Louisville coal gas. It requires no chimney: there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not linkle to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture ye while reading or sewing, the rebeing no flickering obsteadiness in the flame. The Vesper Gas light is poble, and can be used in town or country—in fact, where artificial light is required. The fixtures themsely able, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain at gle light-turner to the most costly chandeller. Each chandeller is perfect in Itself, there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cleap single light burner to the expensive chandeller, are miniature gas worked the cost of ordinary gas fixtures of similar styles and ernamentation. The River was falling quite fast yesterday, with 12 feet water in the ranal at dusk, by the mark. On the falls there were 9 feet steamboat water, the river having fell two feet at the head of the falls during the previous 24 hours. The weather was cloudy and chilly all day, with a hard rain the night before, and heavy storms along the river compelling boats to lie by.

The river at Cincinnati and Pittsburgh continues steadily receding, though slowly, and we think the talls will not be navigable for ascending boats much longer. THE RIVER was falling quite fast yesterday, with

The Mississippi at St. Louis, yesterday, was slowly falling, but the lower Mississippi, as we have already stated, is at flood height, and over its banks in all directions. Our exchanges report innumerable crevasses, and the river higher than the flood of last year, including Lake Providence, where it had fallen on the 20th, but on the 28d, it had commenced rising again.

where it had fallen on the 20th, but on the 28d, it had commenced rising again.

Crevasses had occurred at Cammacks, Brunswick landing, Ashton and Carolina landings, all on the Mississippi side. The levee had also broken at McNeilt's, in Coahoma county, at Mrs. Crenshaw's, in Boliver, at Prentiss' and Greenville. Several of these crevacess are 300 yards wide, inundating plantations in all directions. In Washington county, Miss., the levees had been broken at Glenora and P. SCRE.—It will be seen by our dispatches and the account in another column, that the Nat Holmes and David Gibson came into collision opposite Aurora Monday night, and both boats sunk. The Holmes was from Pittshurgh, full of passengers for the West, and the Gibson was from New Or-leans, very heavily laden for Cincinnati. She was an old, well worn boat, of very little account.

Aurora appears to be the battle ground for Pittsburgh and Cincinnati boats, as it was the same place that the Iowa and Madison came together. The Nat Holmes, we believe, a year ago sunk the Cuba at the Smithland wharf. AN EARTHQUAKE ALONG THE ORIO. - The officers

The Proals Marina and Frankinsurance Company.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our columns this morning. It is the first detailed exhibit of the condition of any home company that we have ever seen, and compares most invorably with the state nents of the best Eastern companies. Such an array of assets, amounting in all to \$352,555 24, shows most conclusively that we have a company in our own state, as sound and as well managed as any other, no matter where located. As it regards its promptness and iberality in the actitement of its iossea, no company has a better reputation. The Peorla Company is doing business in most of the Western and Southern States, inclinding Wisconsin, Michigan, Indiana, Missoril and Kentucky, where it is obliged to tile an annual statement of its condition and to comply with the same laws that are required of all Eastern companies. The fact that the company can comply with the laws of those States, which are regarded as very onerous by many companies, shows that it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

INSURANCE.

Peoria Marine and Fire Insurance THE ASSETS OF THE COMPANY ARE

OUR tohacco factory was very near being destroyed by fire on the night of the 7th of Jannary, on Main, near Ninth streets. The roof being partially burned, our boxes under press were removed in the street, and were partially damaged by the water and rough handling of the boxes. Mr. J. B. McIlvaine, the agent of the Peorla Insurance Company, came very promptly and ordered the roof to be repaired, &c. Arbitrators were mutually chosen, the damages satisfactorily stranged, and he has this day paid the damages in full, allowing claims for labor in protecting the house from the flames, and for removing the stock out and hack into the house. And with promptness on the part of the agent, and on the part of the company in paying losses, I hope to see the Peorla office assected to a good

promptly. Marine policies issued and 10 per cent. premium relained on all insurance, to be settled by note every six months.
